

## Product **Embossed Wristbands**

Embossed wristbands are unique in that your image and/or text will be raised above the surface of the wristband. This style of wristband is very popular among customers who want a particular word such as "HOPE" or a phrase such as "DON'T TXT AND DRIVE" to stand out.

The manufacturing process for embossed wristbands is the same as it is for debossed wristbands, only this time the inclusions in the mold will allow for raised designs. We have thousands of images and hundreds of font styles for you to choose from when creating your custom embossed wristbands. We will work together to create the perfect wristband for you and will not put your order into production until you have received and approved a digital proof. After each wristband is made, it is closely inspected for quality and accuracy before being packaged for shipment.
